Alucoil offers 3 alternatives based in the strictest parameters of quality.

• **Liquid PVdF Kynar 500 70% paint** in **2 layers 25μ** or **3 layers 35μ**. (Any RAL chart colour from 800m²).

• **termolac**, a **high quality polyester** powder. (Any RAL chart colour from 500 m², please request for minimum quantities in matched colours).

The colours in this colour chart are very close to reality. However, **Alucoil** advises to select the final colour over physical samples.
